

Asbestos awareness

If you're in a building that was built before the year 2000, it probably contains asbestos. The dangers that asbestos presents are serious, with it being responsible for around 5,000 deaths per year. Employers must ensure that anyone who could disturb asbestos while carrying out their everyday work understands what asbestos is and how to work in a competent and safe way, without risk to themselves or others.

AREAS COVERED

- What asbestos is
- Where it can be found
- Asbestos-related death
